

Somaliland Renewable Energy Fund Window 1: Energy Service Providers

Responses to Concept Note Application Questions Updated 7 June 2019

Question 24

In the concept Note, the Annex 7: Notarized document describing company ownership structure and beneficial owners of the applicant. could you please clarify that documents?

Response

This is a document created by the Applicant with a narrative description of the firm's ownership structure. This description should include whether the Applicant firm has a single owner, is a partnership, or a company with shareholders. It would also explain whether the company is independently owned, is part of a consortium or ownership group, or is a wholly or partly owned subsidiary of another firm. The names of any such associated firms should be disclosed. In addition to this description, the Applicant should provide a list of the major beneficial owners of the firm. This entire document should then be notarized according to the standard practice in Somaliland.
